## **THE FACTORY RESIDENCE HALL BOOKING CONDITIONS**

---

Most of our rooms are for full course stays (from September 1st to May 31st) although some of them can be booked for short term stays if available.

When applying and accepting a place in our Residence you are committed to remain in the Residence for the entire period booked at the contract. The abandonment of the residence either voluntary or due to expulsion will not exonerate you from the commitment to pay for the whole contracted period as well as the loss of the deposit paid.

During Christmas and Eastern breaks the Residence will remain closed and the students will have to leave the Residence. However, they can leave all their personal belongings in the room. The specific dates will be set each year according to the academic calendar and the calendar of the Residence will be given to the students at their arrival in September

In case you are interested in coming to visit the Residence please contact us always in advance to make an appointment so we can show you the residence properly.

Not all rooms of the same type are exactly the same, with small differences depending on the location within the building and other factors. Therefore, rooms will always be assigned in order of reservation.
